BIOLOGY

BIO-VIEWERS (ELB.108.480)

BIO-VIEWERS

A low cost simple teaching aid. Instead of focussing slides in a microscope you can just push in a bioslide and examine the same without any hassle of focussing or locating. An inexpensive and practical alternative to microscopes.

BIO VIEW SETS (BIOSLIDE SETS)

The biosets are alternate to microslides and are supplied as a filmstrip or as separate transparencies. The transparency set has eight slides covering one topic with a booklet with detailed notes written in simple language. The topics are related to the student's own experience. A list of questions is provided at the end of the notes. The filmstrip for use with slide projector also has eight frames covering one topic with detailed notes and questions.
